Process On For 1,000 MW Solar Park InJogulambaGadwalDisrtrict

The government had identified 5,481.86 acres of land in the Gattumandal of the Mahabubnagar district for the Solar Park. The Government was in the process of finalising the Master Plan with the assistance of the Solar Energy Corporation of India (SECI), New Delhi

The government would develop the required infrastructure in this Park, and that the Union Ministry of New and Renewable Energy (MNRE) would provide Central financial assistance of Rs 20 lakhs per Mega Watt for the creation of the infrastructure in the Solar Park, which entails an outlay of Rs. 8,000 crore to Rs. 10,000 crore.

SECI has tied up with Japanese lending agency JICA for the initial infrastructure and plans to provide loans at lower interest rates for the developers. This could be 4-5 per cent through various multi-lateral agencies like the World Bank, Asian Development Bank, and through the Clean Energy Fund.

The Government role will be limited to facilitation and creation of necessary support infrastructure. Currently the file is laying with the energy department.
