Reform details	Simplifying approval and renewal of Factory License/Trade License by reducing the steps involved in documentation, and online registration under Shops & Establishments Act
Applicable to Departments	CDMA, GHMC, PRD, Factories and Labour

<p>Approach to reform</p>	<p>1. Trade License:</p> <ul style="list-style-type: none"> • In Telangana, trade licenses are issued by urban as well as rural local bodies. There are 141 ULBs including Greater Hyderabad Municipal Corporation (GHMC) and 12769 Gram Panchayats. Each of these local bodies issue trade licenses for the commercial establishments set up in their jurisdiction. Issuance of trade licenses by ULBs is mandated in the Telangana Municipalities Act, 1965 and in the GHMC Act, 1955 and bye-laws. • ULBs implemented online system for issuance of trade license which allows the applicant to submit application online with no physical touch point, make the necessary fee payment online and download the trade license certificate online without having to physically collect the document. On the ULB side too, the officers' complete the scrutiny and collect the fee online reducing the overall timelines to 15 days. Other than the onsite premises inspection the entire application and approval process happens online. The ULBs issue digitally signed trade licenses which are downloaded by the applicant as well available for third party verification. • Further, the Panchayati Raj and Rural Employment Department implemented an online system for issuance of trade license which allows the applicant to submit application online with no physical touch point, make the necessary fee payment online and download the trade license certificate online without having to physically collect the document. On the GP side too, the officers' complete the scrutiny and collect the fee online. Other than the onsite premises inspection the entire application and approval process happens online. The GPs issue the online trade licenses which are downloaded by the applicant and also dispatch a physical copy
